GOURMETbus

GOURMETbus, a new service that lets you soak in the views of the city while you dine on board, is the brainchild of tour operator Big Bus Singapore City Sightseeing, best known for its amphibious DUCKtours rides here.

A first-of-its-kind dining concept in Asia, the GOURMETbus combines scenic city tours with the enjoyment of a specialty lunch or dinner. All of this on board a luxury coach designed with the aesthetics of a restaurant - sans kitchen - and featuring the very latest technology.
